

application

Softclean is an environmentally friendly cleaning solution for Anilox rolls. Softclean shows high cleaning efficiency and with daily maintenance of the roll cells, it optimizes transfer volume and can be used as a finisher cleaner.

Softclean is completing our other cleaning solutions from the SCS and ULT series, as well as UV-499 (see technical data sheets of these products for more information about their use).

efficiency

Softclean is efficient on UV, solvent and water-based inks.

how to use it

once applied, leave it working during a few seconds, then wipe it off and simply rinse with water.

specifications

Softclean doesn't contain solvents :

- appearance : clear liquid
- color : yellowish-brown
- density : 1,045
- inflammation: N.A.
- ph : 12,2<>12,8
- stability : frost sensitive
- c.o.v : < 1 %

safety

Undiluted, Softclean may irritate skin, eyes and respiratory system :

- after eye contact : rinse opened eye for several minutes under running water. Then consult a doctor.
- after skin contact : immediately wash with water and soap and rinse thoroughly.

We recommend wearing protective gloves and safety glasses. See safety data sheet for more information.
